## 1.6 Scoring

1.6.1 Points will be awarded to competitors listed as classified finishers in the Final Results as follows :

At each round in each class : 6-4-3-2 plus 1 for each additional finisher, plus 1 for fastest lap.

Should the number of starters in a class be less than 4, then 1 point will be deducted for each starter less than 4.

The number of starters will include all registered drivers, both those eligible for points and those not.

If a driver not registered for points finishes in a points scoring position they shall be ignored in the allocation of points, other drivers will move up for allocation of points.

The final round of the Championship - will be for double points.

At all rounds, other than those at Oulton Park, drivers who start the race will receive 3 points in addition to those earned at the finish of the race. These points will be known as “Away Round Starter Points”. These points will not be doubled if a joker is used at one of these rounds. In order to be classified as a starter a driver must take up his position on the grid after the green flag lap. If the race is red flagged and the initial start is deemed null and void being on the first race grid will count as a start.

The overall Championship positions will only be determined from classes A - F and not from the pseudo classes described in 1.6.6 below.

1.6.2 The totals from all qualifying rounds less 2 will determine final Championship points and positions. Plus all “Away Round Starter Points”.

1.6.3 Ties shall be resolved using the formula in Q3.4 in the 2010 MSA Yearbook.

1.6.4 Drivers may score points in different classes but they may not add points scored in different classes together to determine their final Championship points and position.

1.6.5 Each registered driver will be able to nominate one round to be that driver’s Joker round. At the nominated round the driver will score double points (including fastest lap if appropriate). “Away Round Starter Points” will not be subject to doubling. This nomination must be made to the Championship Co-ordinator or a Championship Committee member prior to the start of practice for the race (or races in the case of a double header meeting with one practice session) being nominated using the appropriate form. No change to the nominated round can be made even if the driver fails to start. A driver will however be able to nominate another round if the initially nominated round is cancelled. Drivers may not nominate the final round of the Championship as a joker round.

1.6.6 In addition to classes A - F, if there are at least four similar cars (same manufacturer) registered in either the same class or more than one class by the sixth round then, at the discretion of the Championship Committee, a class (or classes) may be run for these cars. Once sufficient cars have registered to form one of these pseudo classes the drivers will be notified by the Championship Co-ordinator. Points will be scored from the first round after the class (or classes) has been formed. Point scoring will be as for standard classes with the exception that jokers will not count, no points will be awarded for fastest lap and all rounds will count. At the end of the season the class winners will receive £25 and a trophy with second in class also receiving a trophy. Drivers in these pseudo classes score points in their normal classes as normal.

Providing decals and sunstrips are available at the meeting failure to comply with these regulations in the race will result in the competitor not being eligible for points or trophies but they will count as a class starter. If a competitor fails to comply with this regulation at a subsequent meeting where decals are available (a meeting with double header rounds counts as one meeting) they will fail scrutineering and not be allowed to race until they comply.
