- 3.10.4 A competitor must remain available at an Event until any protest period relating to their race has elapsed failing which any judicial action against or relating to that competitor may be heard in their absence.
- 3.10.5 Competitor cars may not be removed from the Paddock during an Event after scrutineering except for the purpose of competing in the rounds comprised in the Event or with the prior written permission of the Licenced Eligibility Scrutineer and Championship Clerk of the Course. The Licenced Eligibility Scrutineer may require the competitor's car to be re-scrutineered at any time.

3.11 PITS & PITLANE SAFETY:

- 3.11.1 Pits: Entrants must ensure that the Motorsport UK Circuit Management and Organising Club Safety Regulations are complied with at all times.
- 3.11.2 Pit lane: The outer lane or lanes are to be kept unobstructed to allow safe passage of cars at all times. The onus shall be on all competitors to take all due care and drive at minimum speeds in pit lanes.
- 3.11.3 Refuelling: It is not permitted to refuel in the pit lane during qualifying and races.

3.12 RACE FINISHES:

- 3.12.1 After taking the Chequered Flag competitors are required to:

Progressively and safely slow down remain behind any competitors ahead of them and return directly to the Pit lane Entrance/Paddock Entrance as instructed and comply with any directions given by Marshals or Officials and keep crash helmets on and harnesses done up while on the circuit or in the pit lane.

3.13 RESULTS:

- 3.13.1 All Practice Timesheets Grids Race Results are to be deemed PROVISIONAL until all vehicles are released by the Organisers through the Licenced Eligibility Scrutineer after Post Practice/Race Scrutineering and/or after completion of any Judicial or Technical Procedures.

3.14 TIMING MODULES:

- 3.14.1 All competitors will be required to fit an Electronic Self Identification Module (Transponder) as per Q12.2.1. to their car for the purposes of accurate timing. Holders for these and detailed fitting instructions will be issued with the transponders and it will be the responsibility of the competitor to fit these in the car in the position and manner specified. The Modules must be in place and functioning correctly for all Championship qualifying practice sessions and races. The setting and servicing of these items must only be carried out by properly authorised Motorsport UK licensed Timekeepers. Competitors will be charged by the timing company for replacement of the Modules due to misuse or loss at any time during the season.
- 3.14.2 Any competitor who fails to fit a transponder to their car may not necessarily be timed by the official timekeepers for the event at their discretion. In such a case the competitor may start the race from the back of the grid but also may not necessarily feature on the results of the race irrespective of their finishing position.

3.14.3 Competitors may not place electronic timing equipment within five metres of the official Start Finish or any other official timing lines at any event or test session/day. Any such equipment placed within these zones will be removed.

3.15 SAFETY CAR:

3.15.1 The Safety Car will be brought into operation in accordance with Motorsport UK Regulations [Section Q Appendix 2] to neutralise a race upon the sole decision of the Clerk of the Course. The Safety Car will be driven by an experienced circuit driver (in accordance with GR G5) and will carry an observer capable of recognising all competing cars and who is in permanent radio contact with race control.

3.15.2 The Safety Car yellow/amber lights illuminated will normally join and exit the circuit from the pit lane and the Safety Car boards will be shown initially from the start-line. If these locations are to be varied specific written instructions and verbal briefings will be issued detailing the exact locations to be used.

3.15.3 On the order from the Clerk of the Course the Safety Car will join the circuit with its revolving lights on regardless of where the race leader is.

3.15.4 When the order is given to deploy the Safety Car a waved yellow flag and "SC" board will be displayed at the start finish line. The waved yellow flags and "SC" boards will flow around the circuit in both directions as an adjacent post displays both their waved yellow flag and "SC" board. This system may be supplemented by a message being simultaneously broadcast to all marshals' posts if such a communication system is available.

3.15.5 Flashing yellow lights may also be used at the start-line and at other points around the circuit.

3.15.6 All competing cars when notified of the Safety Car intervention (by the flag signals "SC" boards or by any other means) will reduce speed and line up behind the Safety Car no more than 5 car lengths apart and maintaining the same speed as it. Overtaking or overlapping of any other competing car during a Safety Car intervention is forbidden. Overtaking of a Safety Car is forbidden unless the particular competitor concerned is signalled to overtake the Safety Car by the observer in the Safety Car.

3.15.7 When ordered to do so by the Clerk of the Course the observer in the Safety Car will wave past any cars between the Safety Car and the race leader. These cars will continue at reduced speed and without overtaking until they reach the line of cars behind the Safety Car.

3.15.8 While the safety car is in operation competing cars may enter the pit lane but may only re-join the track when signalled to do so and not when the safety car and the line of cars following it are about to pass or are passing the pit exit. A car re-joining the track must proceed at an appropriate speed until it reaches the end of the line of cars behind the Safety Car.

3.15.9 The Safety Car will remain in operation until at least the majority of competing cars on the circuit are lined up behind it.

3.15.10 When the Clerk of the Course calls in the Safety Car it will extinguish the yellow/amber flashing lights prior to exiting the circuit. This would normally be such that a minimum of 25% of a lap for circuits over 2 miles and 50% of a lap for circuits under 2 miles should be completed by the Safety Car with its lights extinguished.

3.15.11 Following the safety car extinguishing its lights and prior to passing the green flag the race leader will maintain the pace set by the Safety Car. The race leader will dictate the pace and if necessary fall more than five car lengths behind it. In order to avoid the likelihood of accidents before the safety car returns to the pits from the point at which the lights on the car are extinguished competitors must proceed at a pace which involves no erratic acceleration or braking nor any other manoeuvre which is likely to endanger other competitors or impede the restart.

3.15.12 As the Safety Car is approaching the pit entry the green flag will be displayed at the start finish line and the "SC" board withdrawn. Following this display of the start signal yellow flags and "SC" boards at the marshal's posts will be withdrawn and be replaced with a waved green flag for one lap. The waved green flag will flow around the circuit in both directions as an adjacent post displays their waved green flag. This system may be supplemented by a message being simultaneously broadcast to all marshals' posts if such a communication system is available. Overtaking remains strictly forbidden until the start signal at the start/finish line is passed.

3.15.13 The first three (3) laps completed under the Safety Car will not be counted as race laps. After the completion of the third intervention lap any further laps undertaken will be counted as race laps.

- 3.15.14 Under certain circumstances the Clerk of the Course may ask the Safety Car to use the pit lane. In this case and provided its yellow/amber lights remain illuminated all cars must follow it into the pit lane without overtaking. Any car entering the pit lane under these circumstances may stop at its designated garage area.
- 3.15.15 The Championship Clerk of the Course may impose a penalty upon any competitor or team who he considers has gained an unfair advantage whether inadvertently or not from a breach of these Safety Car Regulations. In the event that one competitor breaches these Safety Car Regulations for the benefit of another competitor then both may be penalised.

3.16 DRIVING STANDARDS:

- 3.16.1 Any competitor who is reported to be involved in cases of contact which in the opinion of Officials is avoidable may be subject to the following immediate penalties:
- 3.16.2 During practice and / or qualifying: The competitor concerned will be Black Flagged and may be prevented from taking any further part in that session
- 3.16.3 During race: The competitor concerned will be penalised by way of a drive through penalty in accordance with Motorsport UK Regulation Q12.6.
- 3.16.4 A drive through penalty being imposed will be notified by the use of a Black Flag or Black Flag and Penalty Board and must be taken within 3 laps of the notification being given. It will involve the competitor entering the pit lane observing the pit lane speed limit between the 'in' and 'out' control lines and exiting the pit lane to re-join the race without stopping at his / her pit.
- 3.16.5 Failure to comply with the imposition of a drive through penalty will result in the car being black flagged and may result in exclusion from the race in question
- 3.16.6 In the event that a penalty described above cannot be imposed for operational reasons during a race (i.e. within 5 minutes of the end of a race) the competitor concerned may be given a 30 second elapsed time penalty (and relative Licence Penalty Points) as an alternative.

3.17 SPARE CARS:

- 3.17.1 Replacement cars may only be permitted with the express permission of the Clerk of the Course and a Championship Coordinator. The presentation of a spare car for scrutineering must be done in accordance with the regulations set out within the current Motorsport UK Yearbook.
- 3.17.2 A competitor using a replacement car will incur a 20 point reduction in the Championship points.
- 3.17.3 A replacement car is considered to be any car other than that which was originally scrutineered for a particular event for the specific competitor. This includes cars scrutineered for use by other competitors.

3.18 ADDITIONAL SPORTING REGULATIONS ISSUED FOR THE CHAMPIONSHIP:

- 3.18.1 Any competitor competing in the Championship may be called before a meeting of the Championship Stewards who at their discretion may take further action that could include exclusion from part or all of the Championship or suspension withdrawal or revocation of Championship Registration.
- 3.18.2 The Organisers of the Championship are determined to create a Championship which is cleanly fought and with good sportsmanship prevailing.

If the Championship Clerk of the Course wishes to view any video evidence and / or data logging evidence in order to assist with his enquiry into a breach of driving standards he may order that the results remain provisional and he may take judicial action at a later date (A63 applies). However the use of video evidence and/or data logging evidence in all circumstances is at the sole discretion of the Championship Clerk of the Course.
- 3.18.4 Any competitor found guilty of a driving offence which generates penalty points under C2.1.5 will also have Championship points deducted proportional with the severity of penalty imposed. Any deduction of Championship points will be five times that of the associated license penalty points. i.e. formal written reprimand 10 points fine or time penalty 15 points exclusion from practice heat or race 20 points exclusion from meeting 30 points.

- 3.18.5 The Organisers reserve the right to introduce Commercial Regulations for the benefit of the Championship and which shall be published to competitors by Regulatory Bulletin.
- 3.18.6 In the event that any Championship registration is withdrawn suspended or revoked then there shall be no refund in whole or part of any Registration or Entry fee the same or any unused portion thereof being forfeit to the Organisers as a sum in contribution to liquidated damages for breach of contract.
- 3.18.7 In addition to the penalties laid down in these regulations the Championship Stewards are empowered to deduct Championship points and or to revoke or to suspend Championship Registration(s) if the conduct of the Competitor or Entrant or Team or any person associated with any of them in connection with the Championship is deemed unacceptable.

3.19 CAMERAS:

- 3.19.1 All cars must carry a Championship on-board judicial camera during all official qualifying sessions and races.
- 3.19.2 Competitors participating in the Championship must purchase a Championship judicial camera. It is the Entrants responsibility to ensure that the judicial camera is fitted and operational during all official qualifying and races, and that the footage produced is of an acceptable quality.

The onus is on the competitor to ensure the card is fitted and the Judicial camera is switched on and recording for all official qualifying sessions and races. For any camera which is not switched on or has not produced acceptable footage, the Competitor will incur a fine of £250 for each and every offence.
- 3.19.6 Judicial cameras must be switched on not before three minutes prior to leaving the assembly area. The camera will then be switched off and have the data cards collected by a Ginetta representative in the Parc Fermé after the session has been completed. It is the competitor's responsibility to ensure that the data card has been collected before the car has left Parc Fermé. If in the event of a car not being recovered to Parc Fermé the camera must be left running until a Ginetta representative has been to collect it.
- 3.19.7 During qualifying and races the only camera permitted in the car will be the official judicial camera as supplied by Ginetta. The only exception to this will be a camera fitted by the Organisers' television production company. This judicial camera footage is to be used for judicial purposes and it is at the sole discretion of the Clerk of the Course as to whether competitors will have access to this footage after all judicial procedures have been completed.

- 6.12.4 Competitors joining the Championship part way through the season are able to nominate 6 new tyres at the first round they compete in thereafter they can nominate a further 2 new tyres at each subsequent event they enter.
- 6.12.5 For each meeting that a driver does not compete the maximum number of dry tyres will be reduced by 2 tyres (i.e. if a driver starts the season at the third meeting he/she will only have a maximum of 14 new dry tyres available if he/she completes the remainder of the season. Likewise if a driver starts the season at the first meeting and then misses three meetings his/her maximum new dry tyres available would be 12 if he/she completes the remainder of the season).
- 6.12.6 The maximum number of tyres available to each car for use during each Championship round (or "meeting" where two or three rounds are timetabled over a single weekend) will be limited to 6 new tyres. Thus a total of 6 tyres must be presented at scrutineering (4 on the car 2 spares) for registration with the Eligibility scrutineer. If during the first race weekend of the year damage to a maximum of 2 (two) nominated tyres makes further participation in the event impossible two new tyres may be substituted. These new tyres will be deducted from the total allocation of 18 tyres for the season. The substitution may only be authorised by the Licenced Eligibility Scrutineer
- 6.12.17 In very exceptional cases where in the judgement of the Series Licenced Eligibility Scrutineer damage to tyres through no fault of the competitor makes further participation in the event impossible and all previously nominated tyres are not usable additional tyres above the total allocation for the season may be purchased. However for every additional tyre purchased the competitor will incur a nine (9) Championship point deduction. It is the competitor's responsibility to notify the Licenced Eligibility Scrutineer of their intention to exceed the tyre allocation prior to any Qualifying sessions or races.
