

Championship Bulletin 2021

Regulation Amendments & Clarifications

Lancaster Insurance MG Owners Club Championship

Bulletin Number	01
Date of Implementation:	17 June 2021
Championship Permit No:	CH2021/R046

With immediate effect, the following amendment is to be made to the official Championship Regulations already issued for the above Championship. All additions are underlined and in red text. Where appropriate, deletions are shown in blue strikethrough.

Regulation Amendments:

Article 6.18 – Fuel Tank / Fuel System:

- 6.18.1 ~~The original fuel tank as fitted by the manufacturer must be retained and used. It must remain in its original position. It may be foam filled if desired.~~The original fuel tank may be replaced with a foam filled aluminium fuel tank. This must be located in the recess originally intended for the spare wheel. There is no restriction on the tank capacity but it must not protrude above the boot floor. The spare wheel recess above the fuel tank is to be covered with a fixed aluminium sheet which, except for the filler neck, must cover the tank and entire spare wheel recess.
The tank must conform with J5.13.1, 5.13.2 and 5.13.3

Reason:

On the grounds of safety to allow the use of non-standard fuel tanks due to the reduction in availability of original parts due to the age of vehicles competing in the championship.
