

BARC Mallory Park – August 1st 2021

Pickup Truck Racing Championship – Driver briefing notes.

In addition to the very comprehensive notes issued by the Race Director, Sonny Howard, please will you read and digest the following important notes.

Signing On must be done virtually in advance of the meeting using the forms on the REV up system. Please see Final Instructions for details / link

Assembly Area – Please ensure you are in the assembly area in good time (20 mins before) to start your session / race. This ensures we are able to keep to a tight timetable without delay.

Race Start - as advised by Sonny, Pickups will have two green flag laps behind the Pace Truck.

Tyre Bundles / TRACK LIMITS – PLEASE NOTE in a change from the May 1st meeting, there will be additional SUBSTANTIAL tyre bundles situated at the apex of turn 3 / 4 and also on the exit to the main straight. These are design to ensure that no one cuts the corners and thus exceeds track limits. Please ensure you familiarise yourself with the position of these bundles as you complete your sighting laps.

If anyone has any questions or is unsure of any the above or any other matters, we are happy to discuss these with you individually. I aim to be at the circuit on Saturday afternoon around 5pm and then again from early on Sunday morning.

Jeremy Smith

Clerk of the Course – Pickup Trucks
