

Championship Bulletin 2021

Regulation Amendments & Clarifications

Legends Cars National Championship with MRF Tyres

Bulletin Number 01
Date of Implementation: 6 October 2021
Championship Permit No: CH2021/R041

With immediate effect, the following amendments are made to the official Championship Regulations already issued for the above Championship. All additions are underlined and in red text. Where appropriate, deletions are shown in blue strikethrough. Italics are used as notes and do not amend regulations.

This Bulletin has been approved by Motorsport UK and to the extent required applies Exemption to GR D.11.2 under GR A.2.4 applied by Motorsport UK Regulatory Counsel on behalf of Motorsport UK.

Regulation Amendments:

5.3 Safety Requirements

a) – e) are unchanged

f) Competitors are reminded that the positions of the fire extinguisher and cut-off switches must be marked on the exterior of the vehicle in accordance with the Motorsport UK Yearbook, section K.3.2.2 & K.8.5. In particular the minimum dimensions and layout of the markings required must be respected.

Relevant text and diagrams from the Motorsport UK Yearbook included below for ease.

<p>K.3.2.2. The triggering point from the exterior must be positioned close to the Circuit Breaker (or combined with it) and must be marked by the letter "E" in red inside a white circle of at least 10cm diameter with a red edge.</p>	<p>Fire Extinguisher Warning Symbol</p> 
<p>K.8.5. The triggering system location must be identified by a Red Spark on a White-edged Blue triangle (12cm base), and the 'On' and 'Off' positions clearly marked.</p>	

Reason:

Given the unique construction of the Legend vehicle it is critical for Driver and the marshals' safety that the position of the vehicle extinguisher and cut-off switches are clearly identified so that in the event of an incident either can be accessed as quickly as possible.
