

## Praga Driver Briefing Notes.

Silverstone 12/13 July 2022.

Welcome, my name is Andy Butler, I am your Clerk of the Course for this meeting.

Please read BARC's Standing Regulations and Health and safety Guidance Notes, driver briefing notes. Latest versions are available on BARC's website.

You should all have **signed on** before the meeting, this cannot be done on the day.

**Noise Testing**, will be carried out when you enter assembly area for qualifying on Saturday.

**Circuit entry**, for all sessions you will enter the circuit from assembly area.

**Exiting the circuit.** For all sessions. After taking the chequered flag do a complete lap and exit the circuit into the pit lane, Parc Ferme is at the far end of the pit lane.

On the slowing down lap, please keep a high pace up to clear the circuit as soon as possible.

**Qualifying**, the average time from the fastest lap of each pairing in Saturday qualifying will determine the grid for race one. Sunday qualifying will determine the grid for race two.

**Grid procedure**, cars will be released from assembly to the grid. Once all cars are on the grid a 3-minute count down will commence to a rolling start.

**Race Starts.** All starts are a rolling start, the safety car will leave the grid and continue at a moderate pace until it exits Village/The Loop onto Wellington Straight, where it will begin to slow down. all cars should start to form up behind the safety car ready for the start. Entering Brooklands, the grid should be set and ready for the start. The safety car will exit into the pitlane. Cars should be in two rows, as per the grid sheet, following the car in front. Positions should be maintained until the start lights go out. Failure to maintain position can result in a false start penalty being issued.

**Aborted Start**, if the lights stay on, this will indicate an aborted start. Drivers will go round again following the same procedure as before but with no safety car, pole position will control the Grid. Be aware that if an aborted start happens, the race time starts when the pole position car crosses the line at the aborted start.

**Safety Car** will be used for the races only. When the yellow flags and S/C boards are displayed, all drivers will reduce their speed. The lead car will effectively become the safety car, until they meet the safety car, and all cars will line up behind the lead car. Safety car will enter the circuit from the pitlane and will exit into the pitlane. Once the safety car extinguishes its lights, the lead driver will resume the role of safety car once again. There is to be no overtaking or overlapping of another car until you have passed the control/finish line. Safety car regulations are page 303 of the Blue Book.

**When the safety car flags and boards go out, drivers are required to slow down significantly and immediately, not when they meet the safety car.**

The pitlane will remain open during safety car periods. No refuelling can take place during safety car periods.

**Mandatory Pit Stop.** It is your responsibility to know the pit stop regulations. The Britcar staff are allowed to answer your questions on pit stop regulations. They are also Judges of Fact for pit stops.

Pit stop time is taken from the pit in timing line to pit out timing line, beam to beam time is **30.2 seconds @ 40kph**. Pitlane speed limit is **40Kph**.

When exiting the pitlane please take extra care when rejoining the circuit. Do not cross the white blend line on exit.

The pit window will open 20 minutes after the race start and close 35 minutes after the race start.

**Track Limits,** Judges of fact will be positioned at the exit of Copse, exit of Stowe and exit of Club. In qualifying you will have the lap time removed, if it's your quickest.

In the race the following penalties will be applied.

Second offence, black and white warning flag, via start line signal and digital board.

Third offence, 5 second time penalty.
