

British Endurance / Britcar Trophy

Additional Driver & Team Manager Briefing Notes

Snetterton 14/15 May 2022

Pre-Practice/Qualifying procedure

In order to ensure that all cars are noise tested in an efficient manner prior to the beginning of Practice/Qualifying the following procedure will apply.

Once the Pitlane is clear of cars from the preceding session, the message "FAST LANE OPEN" will be displayed on the Timing Screen. At this point cars may be released from the Pit apron and may queue in the Fast Lane at the Pit Exit. Any cars located in the Assembly Area will be released to the Pitlane at this time.

The Environmental Scrutineer will walk the line of cars to carry out the mandatory noise checks, commencing with the car closest to the Pit Exit. The start of the session may be delayed if all cars in the queue at the scheduled Pitlane opening time have not been tested.

Cars joining the session after the session has begun must ensure that they have passed a noise test prior to joining the track.

Pre-Race procedure

Prior to the Pitlane opening, the message 'FAST LANE OPEN' will be displayed on the Timing Screen. At this point cars may be released from the Pit apron and may queue in the Fast Lane at the Pit Exit. Any cars located in the Assembly Area will be released to the Pitlane at this time.
