**Special Note:**

At this meeting we may operate the circuit light panels to enable signalling to the competitors, rather than use the traditional flag signalling system, with the circuit clearly divided into “zones”. Should this change of procedure be adopted then additional instructions will be circulated in advance of the event. This change of procedure is in accordance with Motorsport UK regulations and is being employed to enable more visible signals to be given to competitors and allow marshals to operate under safer conditions. While marshals will not be asked to wave flags their role is still critical in using the light control panel to provide protection to their fellow marshals working under yellow lights and undertaking the delivery of other signals such as blue, white, green and red/yellow signals, plus the control of hazard board etc.
