**Special Note A:**

At this meeting we will operate the circuit light panels to enable signalling to the competitors, rather than use the traditional flag signalling system, with the circuit clearly divided into “zones”. This change of procedure is in accordance with Motorsport UK regulations and is being employed to enable more visible signals to be given to competitors and allow marshals to operate under safer conditions. While marshals will not be asked to wave flags their role is still critical in using the light control panel to provide protection to their fellow marshals working under yellow lights and undertaking the delivery of other signals such as blue, white, green and red/yellow signals, plus the control of hazard board etc. A set of flags will be on post to be used in the case of a system failure. However, the following flags white, yellow / red and yellow may be used in cases where the light panels are displaying an alternative signal.

**Special Note B:**

The BTCC & Support Races are part of the Motorsport UK Future of Scrutineering Trial which means that a minimum of 25% of the competitors in each championship will be selected for full physical scrutineering with the remaining competitors completing a self-declaration form.
