Race. After racing all cars go to Parc Ferme

All cars from all sessions will go into Parc fermé conditions at the showing of the Chequered Flag.

On the slowing down lap, please keep a reasonable pace up so as to clear the circuit as soon as possible.

Qualifying.

There will be a 40-minute free practice session before qualifying begins. After this session a 10 min qualifying session will begin immediately, the chequered flag will be waved at the control/timing line to signal the end of free practice and the start of qualifying.

No refuelling is allowed during this 50-minute session.

All drivers must complete a minimum of 3 laps, in the vehicle to be raced, during this 50 min practice/qualifying session.

The driver who sets the qualifying time must start the race and no Pro driver may take part in the 10 min qualifying session.

Grid procedure, the pit lane will open and cars will proceed to the grid. 3 minutes after the pit lane opens the pit lane will close, cars still in the pit lane after this time, will be a pit lane starter. The green flag lap will commence 7 minutes after the pit lane opens, any car not in its grid position at this time will remain at the rear of the grid or be a pit lane starter. Teams are allowed **one** team member per car on the grid, **only** to help/assist them to be in the correct grid position. Leave the grid as soon as your car is in position.

Team members going onto the grid, please be at the gate (under the gantry lights) 5 minutes before the pit lane is due to open.

Approximately 30 minutes before the program time, a message on the official WhatsApp and timing screens will give the approximate time the pit lane will open for the race. Be ready 20 minutes before the program time as we can run 20 minutes early.

Race Starts. All starts are a rolling start, the safety car will leave the grid and continue at a moderate pace until its 2/3rd of the way around the track (Surtees) where it will begin to slow down. All cars should start to form up behind the safety car ready for the start. Entering Clearways the grid should be set and ready for the start. The safety car will exit into the pitlane. Cars should be in two rows, traversing across the grid boxes as per the grid sheet, following the car in front. Position and speed should be maintained until the start lights go out. Failure to maintain position and speed may result in a false start penalty being issued.

Aborted Start, if the lights stay on, this will indicate an aborted start. Drivers will go round again following the same procedure as before but with no safety car, pole position will control the Grid. Be aware that if an aborted start happens, the race time starts when the pole position car crosses the timing line at the aborted start.

Safety Car will be used for the races only. When the yellow flags and S/C boards are displayed, all drivers will reduce their speed immediately. Safety car will enter the circuit from the pitlane and will exit into the pitlane. Once the safety car extinguishes its lights, the lead driver will resume the role of safety car once again. **There is to be no overtaking or overlapping of another car until you have passed the control/finish line.** Safety car regulations are page 304/305 of the Blue Book.

When the safety car flags and boards go out, drivers are required to slow down immediately, not when they meet the safety car.

The pitlane will remain open during safety car periods. No refuelling can take place during safety car periods. (CR 2.12.2)

Mandatory Pit Stop. It is your responsibility to know the pit stop regulations. The BEC staff are allowed to answer your questions on pit stop regulations. They are also Judges of Fact for pit stops.
