  - 6.1 No refuelling is allowed during this 50-minute session.
  - 6.2 All drivers must complete a minimum of 3 laps, in the vehicle to be raced, during the 50-minute free practice/qualifying session.
7. **Grid procedure**, the pit lane will open and cars will proceed to the grid. 3 minutes after the pit lane opens the pit lane will close, cars still in the pit lane after this time, will be a pit lane starter. The green flag lap will commence 7 minutes after the pit lane opens, any car not in its grid position at this time will remain at the rear of the grid or be a pit lane starter.
  - 7.1 Teams are allowed **one** team member per car on the grid, **only** to help/assist them to be in the correct grid position. Leave the grid as soon as your car is in position. Team members going onto the grid, please be at the gate 5 minutes before the pit lane is due to open.
  - 7.2 Approximately 30 minutes before the program time, a message on the official WhatsApp and timing screens will give the approximate time the pit lane will open for the race. Be ready 20 minutes before the program time as we can run 20 minutes early.

**7.3** Please note, once all cars are in position on the grid, a one-minute signal will be given for the start of the formation lap, even if this is before the seven minutes noted above.

**8. Race Starts.** All starts are a rolling start, the safety car will leave the grid and continue at a moderate pace until it exits Fogarty Esses, where it will begin to slow down. All cars should start to form up behind the safety car ready for the start. Exiting Melbourne Hairpin, the grid should be set and ready for the start. The safety car will exit into the pitlane. Cars should be in two rows, traversing across the grid boxes as per the grid sheet, following the car in front. Position and speed should be maintained until the start lights are extinguished. Failure to maintain position and speed may result in a false start penalty being issued.

**8.1 Aborted Start,** if the lights stay on, this will indicate an aborted start. Drivers will go round again following the same procedure as before but with no safety car, pole position will control the Grid. Be aware that if an aborted start happens, the race time starts when the pole position car crosses the line at the aborted start.

**9. Safety Car** will be used for the races only. When the yellow flags and S/C boards are displayed, all drivers will reduce their speed. Safety car will enter the circuit from the pitlane and will exit into the pitlane. Once the safety car extinguishes its lights, the lead driver will resume the role of safety car once again. There is to be no overtaking or overlapping of another car until you have passed the control/finish line. Safety car regulations are page 304/305 of the Blue Book.

**9.1** When the safety car flags and boards go out, drivers are required to slow down immediately, not when they meet the safety car.

**9.2** The pitlane will remain open during safety car periods. No refuelling can take place during safety car periods.

**10. Mandatory Pit Stop.** It is your responsibility to know the pit stop regulations. The BEC staff are allowed to answer your questions on pit stop regulations. They are also Judges of Fact for pit stops.

**10.1** For your two mandatory pit stops, the pit lane opens after 20 mins and closed 100 min after the race start.

**10.2** The mandatory pit stop time is **133 seconds**. Pit stop time is taken from the pit in timing line to pit out timing line, beam to beam time is **23 seconds @ 40kph**. Pitlane speed limit is **40Kph**.

**11.1** In qualifying you will have the lap time removed, if it's your quickest.

**11.2** In the race the following penalties will be applied. First and second offence no action, third offence you will receive a Black and white warning flag. Every third offence after this you will receive a drive through penalty. Track limits are per car, not individual driver.

**17. Things to note.**

Control/finish line is in front of race control, start line is approx 100m further up the track next to the start lights.

There is a digi-board on the gantry next to the start lights.

On the grid, only one person per car and no work to be done, the car should be ready when it leaves the pit lane.

This is a long lap, even so, seven minutes from when the pit lane opens are long enough to get to the grid. Anyone not on the grid at seven minutes will start from the rear of the grid.

The formation lap should be completed within four minutes, if it isn't, we reserve the right to start the race time at four minutes.

When lapping is being done, it is the responsibility of the driver doing the lapping to execute it safely.

Stop go penalty box is on the left near the pit exit.

Judicial's will take place as normal. Judicial paperwork will be emailed to the driver/entrant.

Pay attention to the official WhatsApp page, as this is where we will give you information during the weekend.

Thank you and have an enjoyable meeting.
