- 1.1.2 The MINI CHALLENGE is a motor sport Championship comprising of races only for specially built and designated ‘JCW Class’ & ‘JCW Sport Class’ cars and approved invited cars. All cars competing in the MINI CHALLENGE will be subject to inspection and sealing by championship officials at the discretion of the Championship organisers. In addition, certain components of the designated JCW Class & ‘JCW Sport Class’ cars are Factory Sealed. Therefore, it is necessary to provide in these Regulations for various forms of sealing and inspection in order to ensure technical conformity and fair competition. - 1.1.2.1 Factory sealed parts are those parts listed in Appendix D to these Regulations. No interference with them or modification of any type is permitted. Such parts may be examined or inspected at any time during the Championship season and at any time up to and including 30 days next following the day on which the last Championship Event takes place.

- 1.1.2.2 Where seals are fitted on other parts or components by Championship Scrutineers then inspections may take place at any time within 50 days next following the date when the seal was fitted except that the time for such inspections after the last round of the Championship is limited to 30 days next following the date on which the seal was affixed. This extension to 50 days is pursuant to GR J.3.1.5 and the Competitor mutually agrees to this extension of time by the act of Entering the Championship.

The Organisers reserve the right to equalise performance of any invitation car, for example by the addition of ballast or modifying electronic control parameters. These cars may not score Championship points and must comply with the registration requirements set out in 1.4 of these regulations.

- 1.1.3 The Organisers reserve the right to issue additional Official Bulletins clarifying items in the Regulations from time to time and all such Bulletins will be issued in accordance with Motorsport UK Regulation D11.2.

- 1.1.4 The Organisers reserve the right to carry out necessary or required changes to these regulations which are due to “force majeure”, or for safety reasons, or reliability reasons or if requested by the authorities, by means of Official Bulletins D11.2.

- 1.1.5 The Championship Officials, as listed in these Regulations, are happy to advise Competitors on rules and regulations. Only the event Eligibility Scrutineer, or his deputies are empowered to give any kind of judgement regarding the eligibility of vehicles.

- (d) selection made with the object of placing the fastest driver at the front, or
- (e) current positions in a championship, or

1.6 POINTS SCORING

- 1.6.1 All races will be points scoring, but a driver's worst 2 scores will be dropped at the end of season. If a driver's worst score is due to Disqualification then the drivers next worst score will be dropped. For the avoidance of doubt, Competitors are not allowed to drop scores caused by disqualification. Drivers may drop DNF, DNS and races not entered.

For the avoidance of doubt, during the season points tables will show points totals with and without dropped scores.

- 1.6.2 For each class points are scored by Drivers for each round on the following scale:

Position	Points	Position	Points
1st	50 pts	11th	24 pts
2nd	44 pts	12th	23 pts
3rd	40 pts	13th	22 pts
4th	37 pts	14th	21 pts
5th	34 pts	15th	20 pts
6th	32 pts	16th	19 pts
7th	30 pts	17th	18 pts
8th	28 pts	18th	17 pts
9th	26 pts	19th	16 pts
10th	25 pts	20th and below	15 pts

Should a race run for less than 50% of the race time (based on the length of the race as planned at the start of the race) then 50% of the normal points will be awarded.

Drivers who do not finish do not score points for their finishing positions, but are eligible for the following:

Fastest time in Qualifying in each class - 6 pts

Fastest race Lap in each class - 6 pts

For the avoidance of doubt, class means JCW Class & JCW Sport Class not any of the Cups, therefore only the overall fastest lap in each class will score fastest lap points, not the fastest driver in each Cup.

Where 3 or more drivers who have each entered their Class for no more than 6 MINI CHALLENGE race meetings in their Class in the previous 36 months are registered for the MINI CHALLENGE, points scored by those drivers will also count towards the Rookie Cup in Class in which they are entered. Drivers who have finished in the top 3 in the Championship in any current or previous senior TOCA support championship or have ever entered a British Touring Car Championship season or a British GT Championship season will not be eligible for the Rookie Cup in any Class. A driver may voluntarily withdraw him/herself from the Rookie Cup whilst still scoring points for the overall Championship or another Cup in their Class.

2024 The Vertu MINI CHALLENGE Sporting & Technical Regulations

Where 3 or more drivers aged 35 and over are registered in their Class in the MINI CHALLENGE, points scored by drivers aged 35 and over at the time of registration will also count towards the Directors Cup in the Class in which they are entered. If a driver has won the MINI CHALLENGE in their Class in the last 3 years they will not be eligible for the Directors Cup in their Class. Drivers who have finished in the top 3 in the championship or any current or previous senior TOCA support championship or have ever entered a British Touring Car Championship season or a British GT Championship season will not be eligible for the Directors Cup. A driver may voluntarily withdraw themselves from the Directors Cup whilst still scoring points for the overall Championship or another Cup in their Class.

If a dead heat is declared, all the Drivers concerned will score the average points for all positions which are drawn. For example 1st and 2nd are a dead heat. The points awarded will be $50+44=94/2=47$

- 1.6.3 In the event of a tie in championship points between two or more Competitors, the number wins achieved by the Competitors involved in the tie will be used to determine the overall final standing.

Should a tie still exist, it will be resolved:-

i) By taking into account the number of second places achieved; then third places etc. etc.

ii) By taking into account the number of Competitors (i.e. event finishers) beaten during the season by each Competitor.

Disqualification from the meeting will mean that scores from all races at that event will also be dropped.

- 1.6.4 All MINI CHALLENGE rounds will score points as per 1.6.2.

- 1.6.5 In order to score points, collect trophies and awards, all cars and Drivers competing in the MINI CHALLENGE may be required to display and wear the MINI CHALLENGE Sponsors' decals and badges in the nominated position on clothing and vehicles or may be required wear a championship race suit. Where a championship race suit is required dispensation to wear another race suit may be provided by the championship organisers.

- 1.6.6 Note the requirements of SR.4.concerning penalties.

- 1.6.7 Any Competitor who has not presented a valid, complete and current JCW Logbook shall not be eligible to score championship points or collect trophies.

1.7 AWARDS

- 1.7.2 All trophies will be presented to the Driver(s). Drivers are required to attend presentations. Note SR6.1.12

- 1.7.3 Trophies or medals will be presented at each race to drivers as follows:

At the end of each race meeting:

1st Rookie in each Class

2024 The Vertu MINI CHALLENGE Sporting & Technical Regulations

1st Directors Cup in each Class

These awards will be based on the total points scored in each cup over the race meeting.

Additional awards may be given at the sole discretion of the Championship Organiser.

- 1.7.4 End of season awards are Trophies and will be presented as follows (see also SR1.6.3):

Motorsport UK Regulation D 7.1.12 applies.

The MINI CHALLENGE Annual Trophy to the MINI CHALLENGE driver, who accrues the highest number of points in the JCW Class.

Additionally, the following trophies will be awarded in each Class:

1st, 2nd and 3rd Overall

Where applicable - 1st Rookie

Where applicable - 1st Directors Cup

There will be a teams award for the top team operating at least 2 cars and no more than 4 cars in a Class. Before each weekend, no later than the deadline for entries, a team must nominate their two points scoring drivers. The points for these drivers will be added together to create the teams score for the session or race.

Where a team operates more than 2 cars in a Class the team may create a group of 2 drivers and treat each group as separate team for the purposes of the award. Groups must be communicated to the championship coordinator in writing prior to the start of the first qualifying session at the first race meeting. Where a driver does not enter a session the team may nominate a replacement driver, but the driver must not have been allocated to another team or group during the season. Privateer entries may group themselves together in groups of 2 drivers to create a team, but otherwise the same rules apply in respect of substitution.

In order to participate in the team award teams will need an entrants licence. Privateer teams will need to arrange an entrants licence for the group.

At the end of the 2024 season there may be a Sporting Driver award. This award will be decided by a panel of judges to include a representative from the championship sponsors. Criteria will include sportsmanship and driving standards.

- 1.7.5 Other Awards may be announced in MINI CHALLENGE Bulletins. Awards for the invitation class entrants are at the Organisers discretion.
- 1.7.6 In the event of any Provisional Results or MINI CHALLENGE Points Tables being revised after any provisional awards presentations and such revisions affecting the distribution of any awards, the Competitors concerned must return such awards to the MINI CHALLENGE office in good condition within 7 days.
- 1.7.7 The MINI CHALLENGE Champion is required to attend the BARC Annual Awards Evening.
- 1.7.8 Any annual awards must be returned to the Organisers before the last round of the following season's events.

3.1.3 All entry fees for events in the MINI CHALLENGE will be paid to the MINI CHALLENGE promoter, Total Track Ltd.

3.1.4 All correct and complete entries are to be acknowledged by the Organising Club of individual meetings directly to the MINI CHALLENGE office.

3.1.5 Incorrect or incomplete entries will be held in abeyance until they are complete and correct.

3.1.6 Any withdrawal of Entry made after acceptance of any entry, must be notified in writing to the Championship Coordinator and the organising club not less than 3 days prior to the event in question.

3.1.7 There will be no refund of entry fees and any entry fees unpaid will still be due irrespective of the reason for withdrawal or disqualification.

3.1.8 Testing - A test day will usually be available, the day preceding the event, for Competitors to familiarise themselves with the circuit. This may be held under test day or track day rules. Entry for the official pre-race meeting test day is included in the championship entry unless otherwise stated. There may be occasions where the test day is not on the day preceding the event.

The Championship organisers may, entirely at their discretion, cancel a pre-race meeting test day and allow all Competitors to attend a replacement test/track day without using one of their allowed test/track days (as per 3.1.10 below). The Championship organisers will endeavour to provide as much notice as possible and will refund a proportion of the entry fee at least equal to the typical cost of a general test day the previous year, unless the cancellation is force majeure in which case no refund will be given. Test days are not the responsibility of Motorsport UK.

Should a competitor cumulatively cause more than 1 red flag during pre-race test days they shall be required to miss the first 10 minutes of the next qualifying session. The competitor may appeal this penalty to the Clerk of the Course, who may on request review any evidence provided by the competitor that demonstrates that the red flag was caused by reasons other than driver error. If the Clerk of the Course agrees that the Red Flag was due to reasons other than driver error, the Clerk may remove this Red Flag from the competitors cumulative tally and if applicable remove the penalty. For the avoidance of doubt, 2 red flags cumulatively will result in a 10 minute penalty at the next qualifying session, 3 red flags will result in a 10 minute penalty at the next two qualifying sessions, etc. Once a competitor has served all the penalties they have been awarded their red flag tally will reset to zero.

At any time, the organisers may also refer a competitor to the Clerk of the Course due to driving standards concerns during test sessions and the Clerk of the Course may apply any of the following penalties:

2024 The Vertu MINI CHALLENGE Sporting & Technical Regulations

A reprimand or fine of up to £1045
Disqualification from the next test session
The requirement to miss part of the next qualifying sessions
Disqualification from the Meeting
Disqualification from the Championship

- 3.1.9 There may also be a number of other official test days, including a media day which will also be subject to these regulations, but the entry may be at an additional cost. Attendance at official test days is not mandatory with the exception of a media day where attendance is mandatory.
- 3.1.10 Competitors who post a fastest qualifying time more than 107% of the pole time shall not be able to race at the event unless they were within 107% at the previous event, or, at the Clerk of the Course's discretion, they agree to additional testing before the next event to demonstrate they have the ability to qualify within 107% of the pole time.

At any time from 5 working days prior to the start of the season until the end of the season should a competitor drive a MINI CHALLENGE JCW or JCW Sport Class car on track they must notify the Championship Coordinator at least 48 hours prior to the on-track activity. Should the competitor fail to notify the Championship Coordinator the Championship Coordinator may refer the competitor to the Clerk of the Course for the possible imposition of penalties.

3.2 BRIEFINGS

The Organising Club will notify Competitors of the times and location for all briefings in the Final Instructions either electronically, or at the event. Competitors must attend all briefings or be subject to a penalty.

- 3.3.3 All Competitors will be allocated nominated pit lane positions based on garage numbers. This will be communicated before the race meeting.
- 3.3.4 An area may be fenced/marked off at the start of the pit lane to help facilitate checks of tyres to ensure only nominated tyres are used during the pre-race meeting test day.
- 3.3.5 Competitors must ensure that their teams only occupy the space directly in front of the nominated garage. Where teams operate multiple cars all cars from that team will be allocated garages sequentially. The pit lane positions will apply to qualifying and races. Where there are no garages, or insufficient garages, Competitors will be allocated an order to line up in the pit lane and it will be the Competitors responsibility to manage the available space

accordingly. Failure to comply with this regulation may be result in commercial penalties on a case-by-case basis.

3.4 QUALIFICATION PRACTICE

- 3.4.1 Should any Qualifying Practice session be disrupted the Clerk of the Course shall not be obliged to resume or re-run the session; the decision of the Clerk of the Course shall be final.
- 3.4.2 Any driver deemed to have caused a stoppage during any Official Qualifying will have their Fastest Lap time cancelled. If, in the opinion of the MINI CHALLENGE Clerk of the Course, a stoppage during any Official Qualifying is caused deliberately or by driving in a manner not compatible with general safety by any driver and/or entrant then the driver(s) concerned may have all their times from that session cancelled.
- 3.4.3 In the event that a Qualification Practice session is disrupted/stopped/red flagged cars will be under parc ferme conditions unless advised otherwise by the Championship Clerk of the Course or Championship Eligibility Scrutineer.
- 3.4.4 Each driver shall complete a minimum of 3 laps in the car to be raced in either the pre-race meeting test day or the qualifying practice session, in order to qualify (Motorsport UK Regulations Q12.4).
- 3.4.5 All Competitors will be allocated nominated pit lane positions based on garage numbers. This will be communicated in the drivers briefing or before. Competitors must ensure that their teams only occupy the space directly in front of the nominated garage. Where teams operate multiple cars all cars from that team will be allocated garages sequentially. The pit lane positions will apply to qualifying and races. Where there are no garages, or insufficient garages, Competitors will be allocated an order to line up in the pit lane and it will be the Competitors responsibility to manage the available space accordingly. Failure to comply with this regulation may result in penalties on a case-by-case basis; they may include but are not limited to:
- A reprimand or fine of up to £1,045
 - Time Penalty
 - Disqualification from the Session.
 - Disqualification from the Meeting.
- 3.4.6 At the first race meeting each year the order in which cars/drivers will be positioned in assembly area will be determined by random draw. One car number from each class will be drawn from a hat/bag in the drivers briefing (or other random system). This driver will be positioned as the first to leave assembly in qualifying. All other drivers will be lined up in numerical order behind the first car to be drawn. For subsequent race meetings cars/drivers will be lined up based on their position in the Championship (excluding the impact of dropped scores) with the Championship leader positioned first and be first to leave the assembly area at the start of the session. Failure to comply with this regulation may result in penalties on a case-by-case basis; they may include but are not limited to:
- A reprimand or fine of up to £1,045
 - Time Penalty
 - Disqualification from the Session.
 - Disqualification from the Meeting.
- 3.4.7 Competitors who post qualifying times more than 107% of the pole time shall not be able to race at the event unless they were within 107% at the previous event, or, at the Clerk of the Courses discretion, they agree to additional testing before the next event to demonstrate they have the ability to qualify within 107% of the pole time.

2024 The Vertu MINI CHALLENGE Sporting & Technical Regulations

3.5 GRID POSITIONS

3.5.1 Each Competitor will compete in one qualifying session, from which;

Race One

Race one grid positions will be determined by the competitors' second best qualifying time, as published by the official timekeepers and subject to any judicial matters.

Race Two (Only applies where the meeting consists of 3 races)

The grid for the second race of a race weekend will be determined by reversing the top 4-6 finishers inclusive from the previous race as published by the official timekeepers and subject to any judicial matters with the number to be picked at random by the winner of the previous race, or someone nominated by the Organisers as soon as practical after the finish of that race.

If less than 6 cars start the second race, then all cars grid positions will be reversed.

All other classified finishers will be allocated grid positions in accordance with their finishing order from the previous race. Competitors not classified as finishers in the previous race will start in reverse retirement order. Note 4.2.2 penalties.

Where a grid penalty is to be applied the penalty will be applied after the grid has been reversed.

Where a time penalty is applied, if, after the grid is reversed this results in a competitor being placed in a higher grid position than before the grid was reversed they will be demoted to the grid position that would have applied prior to the application of the time penalty. For the avoidance of doubt, where a competitor receives any penalty they shall never benefit from a higher grid position due to the reversal of the grid, than they would have had prior to the penalty.

Final Race

The final race grid positions will be determined by the competitors' best qualifying time, as published by the official timekeepers and subject to any judicial matters.

3.5.2 Non-finishing Competitors will be positioned in reverse retirement order behind the last car of their class on the grid, but in front of any Competitors serving penalties resulting in back of the grid starting positions.

3.5.3 Where classes/championships race together, the class of cars/championship with the fastest qualifying time will be at the front of the grid with a gap to the next fastest class/championship and a further gap to the next fastest class/championship etc etc.

The term fastest qualifying time relates the fastest individual time in the class/championship rather than the average of the classes/championships. This is irrespective of whether some cars individually post times faster than some cars in other classes/championships in qualifying & regardless of results of preceding races.

The gap between classes/championship will be the largest possible considering the restriction of the circuit and the gap will be entirely at the discretion of the CoC.

2024 The Vertu MINI CHALLENGE Sporting & Technical Regulations

3.6 EVENT PROCEDURES

- 3.6.1 The meeting procedure for the Races will be distributed to Competitors by way of Official Bulletins; these must be read in conjunction with individual Event Supplementary Regulations which take precedence.
- 3.6.2 Once a car is positioned in the Assembly area power must be isolated by the competitor until instructed by the Championship Coordinator to start engines. Any competitor found not to have isolated their car will be referred by the Championship Eligibility Scrutineer to the Clerk of Course for the application of penalties including but not limited to disqualification from the session.

Adverse Weather Procedures

- 3.6.1 At the discretion of the Clerk of the Course and in the event of a sudden change of weather the release of cars from Assembly Area may be delayed to facilitate the changing of tyres in the assembly area if not doing so might put the safety of drivers, teams or circuit staff at risk.

3.7 STARTS

Unless modified by the Organising Club's Supplementary Regulations, the following regulations shall apply:-

Both Standing and Rolling Starts may be used, Competitors will be informed of the start procedures at the drivers briefing or before.

Standing Starts

- 3.7.1. All race start countdowns are to have a minimum elapsed period of 3 minutes from the time all cars are released to form up on the grid to the start of the Green Flag lap(s) in the formation specified on the licence for each circuit.
- 3.7.2 The minimum countdown procedures sequence shall be:
1 minute to start of green flag lap – start engines/clear grid.
30 seconds - visible and audible warning for start of green flag lap.
Green flag - Cars leave the grid to complete one green flag lap and return to the grid
- 3.7.3 Any car removed from the grid after the 1-minute stage or driven into the pits on the green flag lap shall be held in the pit lane and may start the race after the last car to take the start from the grid has passed the start line or pit exit lane whichever is the later.
- 3.7.4 Any drivers unable to start the green flag lap or start are required to indicate their situation as per current Motorsport UK regulation and any drivers unable to maintain grid positions on the green flag lap to the extent that ALL other cars are ahead of them, may complete the green flag lap but MUST remain at the rear of the last row of the grid but ahead of any cars to be started with a time delay.
- 3.7.5 Excessive weaving to warm-up tyres - using more than 50% of the track width and/or falling back in order to accelerate and practice starts, are prohibited.
- 3.7.6 A five second board will be used to indicate that the grid is complete. The red lights will be switched on five seconds after the board is withdrawn; the extinguishing of the red lights is the signal to start the race. In the event of any starting lights failure the starter will revert to the use of the National flag.

2024 The Vertu MINI CHALLENGE Sporting & Technical Regulations

- 3.7.7 Where the lap record at a circuit is less than 1 minute there shall be two green flag laps. At the discretion of the Clerk of the Course, 2 green flag laps may be used at other circuits.

Rolling Starts

- 3.7.8 All race start countdowns are to have a minimum elapsed period of 3 minutes from the time all cars are released to form up the grid to the start of the Rolling Lap(s) in the formation as specified on the Track Licence for the Circuit.
- 3.7.9 The minimum countdown procedures/audible warning sequence shall be:
Rolling Starts:
- 2 x 2 Formation (subject to the track licence)
 - 1 minute to start of Rolling Lap – Start Engines/Clear Grid.
 - 30 Seconds - Visible and audible warnings for the start of the Rolling Lap.
 - Green flag - Cars leave the grid and follow the Pace Car
- 3.7.10 Towards the end of the Rolling Lap(s) the pace car will slow in order to bunch up the grid and then leave the circuit after extinguishing its roof lights indicating a start is imminent. The pole position driver will then control the pace of the field and the grid will continue at a similar speed on the approach to the start line, keeping a minimum of 2 car lengths to the car in front. The driver in 2nd position will be required to keep pace with the pole position driver and broadly in line, each row of cars behind should also remain broadly in line with the driver on the same row so that all cars remain paired. It will not be acceptable to move forward from your row. All cars will start racing when the red start light(s) are extinguished. No overtaking may take place until then. In the event that the starting light(s) fail the Starter will revert to using the National Flag.
- 3.7.11 Where there are more than one class sharing the grid at the start of the race each class' pole position driver will be responsible for maintaining a gap of at least 4 car lengths and no more than 10 car lengths behind the back of the grid in front. This will not apply to the driver who is pole in the class in the front grid. All other guidance in 3.7.9 will apply to the other class/s.
- 3.7.12 Any cars removed from the grid after the 1-minute stage or driven into the pits on Rolling Lap shall be held in the pit lane. They may start the race after the last car to take the start from the grid has passed the start line or pit lane exit, whichever is the later.
- 3.7.13 Any drivers unable to start the Rolling Lap or start are required to indicate their situation as per current Motorsport UK Regulations. Any drivers unable to maintain grid positions on the Rolling Lap to the extent that all other cars are ahead of them may complete the Rolling Lap. They MUST remain at the rear of the last row of the grid but ahead of any cars to be started with a time delay.
- 3.7.14 Aborted Start:
- If the start is aborted prior to the pace car pulling off, the pace car will not extinguish his roof lights and will continue to lead the field around the circuit for an additional lap and a new start will be attempted. The race will not start until the pace car pulls off the circuit, the signal to start will not be given, and the start lights may remain at red. When this signal is given, all cars must exercise extreme caution and return slowly round the circuit maintaining their original grid positions stopping on the grid. The race start countdown procedure will then be repeated from the one-minute countdown point. At the discretion of the Clerk of the Course, the race distance may be reduced accordingly.

For the avoidance of doubt, if the offence occurs in the final round of the Championship the penalty detailed below will apply.

If the offence occurs in the final round of the season, a championship points penalty of 50 points shall be applied.

Any Competitor found guilty of contravening these Regulations (Sporting or Technical) may be reported to the Clerk of the Course or Stewards of the Championship for the possible imposition of further penalties which may be imposed separately or combined at the discretion of the Championship Stewards and may include the following.

2024 The Vertu MINI CHALLENGE Sporting & Technical Regulations

30 days (or up until the start of qualifying at the next event whichever is soonest) and they may take judicial action at a later date, which will usually be within 30 (thirty) days in that period. However, the use of video evidence and/or data-logging evidence in all circumstances is at the sole discretion of the Clerk of the Course.

The Championship Organisers may also, within 30 (thirty) days of the Event, be entitled to request the Championship Stewards, to enquire into any matter, notwithstanding that the Clerk of the Course and/or the Stewards of the Meeting may or may not have already investigated the incident. The Championship Stewards will be empowered to take further action if they deem it necessary in accordance with the above. See SR4.2.2 for penalties.

Irrespective of race results being final - grid penalties can be applied to any subsequent race start, and if the offence occurs at a round of the final event of the published calendar, a time penalty of up to a maximum of 30 seconds can be added to the elapsed race time of the Competitor.

- 4.2.6 Should a competitor not finish a race, be disqualified, or be not classified they will start from the back of the grid in their class. Should a competitor receive a delayed start penalty they will start from the back of the entire grid behind all classes.

- 4.2.7 In respect of these regulations, any reference to a grid penalty normally relates to the class grid rather than the race grid. For example, if a penalty is for the competitor to be moved back 10 places, they will be moved back 10 places in their class only. In exceptional circumstances the Clerk of the Course may vary the penalty at their absolute discretion.

- 4.2.8 In addition to any penalty provided for by MSUK rules, the Clerk of the Course may, entirely at their discretion, apply one or more of the following penalties to any competitor for causing Red Flag or Safety car in any qualifying session or race, where the cause was due to driver error by the competitor:

- a) A financial penalty of up to £1,045.
- b) The loss of Championship points, up to a maximum of 36 (thirty-six) points even if this penalty results in a negative points total
- c) Disqualification from a fixed number of races within the Championship
- d) Removal from the Championship in its entirety

The severity of the penalty shall be entirely at the discretion of the Clerk of the Course and shall take account of the circumstances surrounding the cause of the red flag or safety car and take account of any previous similar offences.

For the avoidance of doubt, these penalties may be awarded to the competitor who caused the red flag/safety car, or a competitor who caused an incident which in turn caused a red flag/safety car.

6.4 TESTING & OTHER RACING

At any time from 5 working days prior to the start of the season, or at any time during the season, competitors may nominate up to 28 new and 4 used dry tyres (JCW Class) or up to 14 new and 4 used dry tyres (JCW Sport Class) to be used at test days whether immediately before a race meeting, or between race meetings. Only tyres nominated for testing may be used at any test day. For the avoidance of doubt, test tyres may be nominated all at once or over time. Also for the avoidance of doubt a test day includes any on track activity whether a test day, track day or exclusive event.

The competitor/entrant must submit to the Eligibility Scrutineer, or his appointed deputy, a completed tyre nomination via the means of an electronic tyre app prior any test tyre being used. At the sole discretion of the Championship paper nomination forms may be used instead. Further tyres may then be declared thereafter up to the limits set earlier in these regulations.

Should a competitor cumulatively cause more than 1 red flag during pre-race test days they shall be required to miss the first 10 minutes of the next qualifying session. The competitor may appeal this penalty to the Championship Coordinator, who may on request review any evidence provided by the competitor that demonstrates that the red flag was caused by reasons other than driver error. If the Championship Coordinator agrees that the Red Flag was due to reasons other than driver error, the Championship Coordinator may remove this Red Flag from the competitors cumulative tally and if applicable remove the penalty. For the avoidance of doubt, 2 red flags cumulatively will result in a 10 minute penalty at the next qualifying, 3 red flags will result in a 10 minute penalty at the next two qualifying sessions, 4 red flags will result in a 10 minute penalty at the next three qualifying sessions etc.

Version 1

This 'session' reasonably covers the quantity of footage from two TOCA events – up to 1TB which is equivalent to 1000mins in some codec's. However requests made at the end of the season for

footage from the entire season will be charged as ten separate sessions i.e. £2000 for a whole season's worth of footage.

Cloudbass will need a 'drive' to put the footage on. They can supply a 1TB drive for £100 which you then keep. Alternatively, you can either send them (at your cost) a blank drive of suitable size ready for use (minimum 1 TB and free of other material) or hand-over your drive in person to a member of Cloudbass at the TV compound on Friday or Saturday of a BTCC event only with prior warning. If you intend to hand-over a drive at an event you must let Hugh Dickinson know - via email – by the close of business on the Thursday preceding an event.

Footage will be transferred in the days following a race weekend with the aim to send out drivers on the Wednesday. There is a charge of £10 p&p to post out your drive from Cloudbass or you can arrange to collect from Steve Knee at Cloudbass (address as below) from Wednesday afternoon onwards. All costs are plus VAT.

Footage will only be released once ITV have written permission from Alan Gow.

Along with the footage on the drive will be an ITV Sport graphic 'bug' - this must be used top left or right as appropriate over the images & throughout the use of the ITV footage.
