

Championship Bulletin 2025

British Truck Racing Championship

Bulletin Number 03

Date of Implementation: 26th May 2025

Championship Permit No: CH2025/R004 (A)

The following regulation amendments are made to correct errors (either in detail or administration of changes) and are made with immediate effect.

All deletions are shown in ~~blue strikethrough~~, and additions are shown in red underline. Notes are included in *italics*.

2.10 TIMING MODULES:

It is the Competitors responsibility to ensure that a working transponder is fitted to the vehicle in accordance with NCR CH.12 App.6 Art.2.2. Per NCR Ch.12 App.6 Art.2.6 the Organisers require that the transponder must be placed on the main chassis rail within 100cm of the front of the truck. It should be mounted vertically ~~between 30cm and 60cm~~ as low as possible on the main chassis rail above the track surface ensuring that the transponder has no metal or carbon fibre below it and that it has a clear view of the track.

No electronic equipment may be placed within five metres of any official timing line and any breach of this may result in the confiscation of the equipment concerned.

Reason:

To correct a regulated position for the transponder that was previously unachievable.

Issued by: Gordon Snell
