

CHAMPIONSHIP BULLETIN

Bulletin Number: 6
Date of Implementation: 12/9/25
Championship Permit Number: CH2025/R004(A)

Reason:

Articles 3.8 and 3.9 of the Championship Regulations set out the mandatory requirements for onboard camera systems. These systems are critical for judicial review and incident analysis during competition sessions.

In circumstances where the official judicial camera system is unavailable—through no fault (actual or perceived) of the Competitor—due to equipment malfunction, data loss, or other technical issues, the following supplementary provision applies..

Supplementary Provision

Competitors may submit footage from their own onboard cameras provided the installation complies with Article 3.8. This footage may be considered by the Stewards of the Event for judicial purposes under the following conditions:

Key Conditions:

1. **Footage Eligibility:** Only recordings captured during the relevant session (race or qualifying) will be considered.
2. **Quality Standards:** The Stewards of the Event reserve the right to reject any footage deemed incomplete, unclear, or otherwise unreliable.
3. **Submission Process:** All team-owned footage intended for evidentiary use must be submitted to the Clerk of the Course or the Stewards of the Event within the timeframe specified in the event regulations.
4. **Integrity of Evidence:** Any footage suspected—at the sole discretion of the Stewards of the Event—of having been edited, altered, or otherwise manipulated will be deemed inadmissible and may lead to further penalties.
5. **Evidential Value:** The weight and evidential value assigned to any such Competitor footage will be entirely at the discretion of the Stewards of the Event.

Note: This provision does not replace the requirement for the official judicial camera system to be installed and operational in accordance with Championship Regulation 3.8. It serves solely as a supplementary measure to ensure that reported incidents can still be reviewed when official footage is unavailable.

Date: 12/9/25
