TRAFFIC MANAGEMENT PLAN 2026

Thruxton's traffic management is evolving to recognise our increasing duty of care to all visitors to the venue, which will become stricter under the upcoming legislation known as 'Martyn's Law'. As such, we need to minimise vehicle movements while the site is open to visitors and to keep pedestrians and vehicles separated as far as possible.

The regulations apply to all Event Days, ie days on which the public have tickets to attend the venue.

In this respect, the following protocols will be implemented for each event day:

- All vehicles will be stopped/checked at the Main Gate at the bottom of the Main Drive.
- Main Drive will be closed to traffic from 0800 to 1800 on each race event day.
- Only competitors, officials and emergency services with the appropriate passes will be allowed up the Main Drive after 0800 and must go straight through the tunnel to the paddock area.
- Any vehicle without a pass will be directed into the public car parks.
- A site-wide speed limit of 5mph will be in force at all times.

Paddock bikes/scooters

- No scooters or paddock bikes are permitted outside the paddock area.
- Only two-wheel bicycles may be used on the site.
- Bicycles must not use the vehicle tunnel.
- Riders must dismount and PUSH their bike through the PEDESTRIAN tunnel.
- Breaking these rules will result in the bike/vehicle being impounded for the rest of the event.

Golf buggies

- Golf buggies may be used in the paddock but not around the site.
- They may use the vehicle tunnel but must then park in the designated area to collect guests.
- They may not be driven around the rest of the site.

Caterers/traders

- Please ensure that you have re-stocked and completed all deliveries before 0800 each morning
- You must not move any vehicles after this time
- When breaking down on Sunday, you must either:
 - o Be ready to depart before the final race
 - o Or wait until spectators have left the venue
- Either way, you must wait for Security to give clearance to move your vehicles

Thank you for your co-operation and understanding in helping to manage safety at Thruxton.
